## ◆ ITEM: Power Splitter 2 way Outdoor 4.3-10 Female

### ◆ Outline drawing

### ◆ Specification

Data	Specification
Item	2 way
Frequency	800MHz -2700MHz
Insertion Loss	≤0.3dB
VSWR	≤1.25
Split Loss	≤3dB
PIM3 (Passive Intermodulation IM3)	≤-153dBc (2×43dBm carrier)
Max Power input	≥200W
Impedance	50Ω
Connector Type	4.3-10-Female
Number of Input Ports	1
Number of Output Ports	2
Inner Contact Plating	Allumium/Silver/Brass or same
Outer Contact Plating	Allumium/Trimetal or same
Operating Temperature range	0 ~ +65°C
Relative humidity	5~95%
Ingress Protection Ratings	Outdoor (IP65)
Labeling	The body specifies the model, manufacturer,... or customized
Model (P/N)	HT-SP-0827-4310F-2

## ◆ Accessories Included: Stainless Steel Cable Ties

Data	Specification
Stainless Steel Cable ties type	Compatible with Power Splitter 2 way Outdoor 4.3-10 Female
Material	Stainless Steel (SS) or customized
Stainless Steel Cable Ties Length	The length of the stainless steel cable ties ensures that Power Splitter 2 way Outdoor 4.3-10 Female is firmly attached with steel pipe (Boom) or antenna body and can to install 2 stainless steel cable ties for 1 splitter or customized
Model (P/N)	HT-SST-201
